MALCON MARINE AND LAND CONSTRUCTION

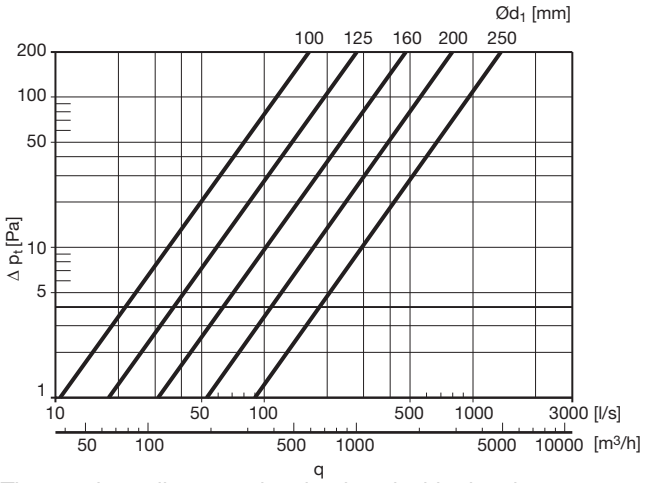

Cleaning bends

BKCU 90°

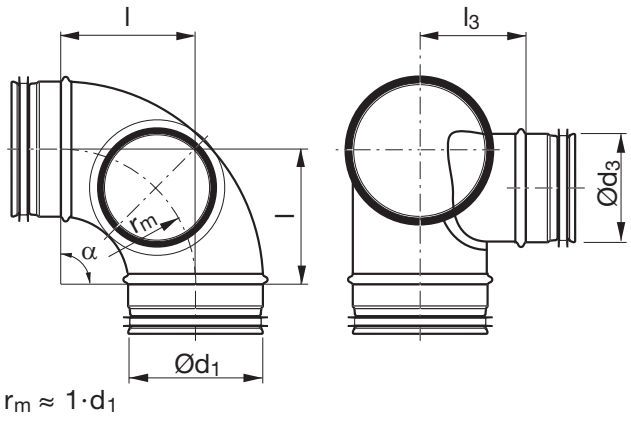

Description

Pressed and seam welded bend with separate branch for cleaning. The stud is fitted with a Safe take-off and fits an inspection cap. The design gives a lower pressure drop than the equivalent design using a T-piece. The stud can also be used as the connection for an SR duct.

The graph applies to a cleaning bend with cleaning cap. Pressure drop is independent of take-off dimension ($Ød_3 \leq Ød_1$).

Dimensions

Ød1 nom	Ød3 nom	l mm	l3 mm	m kg
